From Kettle Falls:

From Kettle Falls you will remain on Hwy 395 crossing the Columbia River and following signs to **Laurier, B.C.** After crossing the bridge you will spot Barney's Junction located just off to the left of the highway. Follow the highway to the right, proceeding north toward the Canadian border.

Approximately three miles from Barney's Junction you will see a turnoff for Kamloops Island Campground. The brown sign is located about a 1000 ft. from the turnoff so watch carefully for it. Take the right hand turnoff and cross the set of twin bridges, passing the campground on your left. You are now on **Northport Flat Creek Road**. Proceeding up the county road, you will wind through the countryside and along the river. After approximately 18.5 miles you will cross over the one and only cattle guard on Northport Flat Creek Road. Approximately one mile ahead you will see an old white country schoolhouse on your left (you will be turning up the driveway immediately prior to the schoolhouse).

Take a sharp left off Northport Flat Creek Road at the old white country schoolhouse onto Bull Hill Road. Proceed up the mountain on Bull Hill Road for 2 miles. The Bull Hill entrance is just above the white house. After the entrance follow the road up the hill. At the top of the hill turn extreme right at the Bull Hill sign. The guest ranch and old homestead is ahead.

Welcome!
